About Me

I love weddings, I mean, who doesn't? They are brilliant things: the happy tears, the embarrassing speeches, the food, the booze, the chance to dance like your parents without any shame...this is no ordinary day and I will make sure your wedding is the most amazing of them all, filled with laughter, amazing surprises, and totally YOU.

I love working with contemporary couples who want a day which challenges the traditional. Want a glitterball over your top table? Hell yeah. Want a brass band playing 80's bangers? Why not? Animals at your wedding? Well of course!

My Goal

To me, my ideal wedding is one that is stunning, maybe a bit quirky, romantic, and a real representation of both personalities combined into one design.

I love an amazing backdrop, a brilliant table design, cool décor and without an organza bow in sight.

Bespoke

No wedding is the same , and that is why you will get a service which is totally bespoke to you.

Unique. Contemporary. Thoughtful.

Full Planning

Yay, you are getting married! That's really exciting...but it might also be a little daunting.
Using my Full Planning Service means that you can focus on keeping your head when other Brides may be losing theirs. I will create a detailed proposal on how I can help you with such things as finding a great venue and caterer to organising cake tasting sessions. Once you have booked with me, I will keep you fully up-dated about how everything is progressing.

My fee for this service will be quoted after our initial consultation once I know a bit more about your ideas, your requirements and the type of wedding you are having.This service will range between 15 - 20% of your budget.

Partial Planning

Have you started planning your big day and realised that your work/life balance has suddenly disappeared, and you are feeling slightly anxious? Bringing me in at this stage means that I can take those worries away so that you can be excited about your day rather than a big ball of stress.

My fee for this service will be quoted after our initial chat. Partial planning fees start from £1,500 but again, this is dependent on your needs and the type of wedding you will be having.

Design & Styling

Do you feel lost when it comes to visualising your wedding? Have you got some ideas but have no idea where to go from there?
I will create a design for the whole event. On the day, I will set up and style the venue.

My fee for this service will be quoted after our initial consultation but will start from £1,500. This is dependent on the level of service you require.

On The Day Co-Ordination

The first time your guests see you, you should both look calm and gorgeous, not stressed and sweaty. You should be able to have your bubbles in the morning without worrying about dressing the venue or whether the cake has arrived.
Handing over the co-ordination on the day will mean that you can both relax and enjoy your time with friends and family.

My fee for this service will be agreed after our free consultation and dependant on your needs on the day. Normally this begins at £600.
